

Name: _____ Date: _____

Email Address: _____ Phone #: _____

Character Name/Series: _____

Pieces needed: _____ Date Due: _____

- | | |
|--|---------------------------------|
| 1. Chest: _____ | 18. Natural Waist to Hip: _____ |
| 2. Waist (Natural Waist): _____ | 19. Crotch length: _____ |
| 3. Low Waist: _____ | 20. Inside leg/inseam: _____ |
| 4. Hip: _____ | 21. Thigh CIRC: _____ |
| 5. Back Waist Length: _____ | 22. Calf CIRC: _____ |
| 6. Front Waist length: _____ | 23. (A) Ankle: _____ |
| 7. Center back neck to front waist length: _____ | (B) Heel: _____ |
| 8. Neck Base: _____ | 24. Seat Depth: _____ |
| 9. Head CIRC: _____ | 25. Bicep: _____ |
| 10. Head length: _____ | Shoe Size: _____ |
| 11. Across Back width: _____ | Height: _____ |
| 12. Across Front width: _____ | Suit Size: _____ |
| 13. Shoulder length: _____ | T-shirt Size: _____ |
| 14. One piece sleeve length: _____ | Pant Size: _____ |
| 15. (A) Wrist: _____ | |
| (B) Hand CIRC: _____ | |
| 16. Center back neck to floor: _____ | |
| 17. Low waist to floor: _____ | |

***Note:**

-Additional measurements maybe needed depending on commission- instruction will be provided if needed.

1	Chest Circumference	Place the tape around the widest point on the chest, which will be roughly level with the nipple. Make sure the tape is sitting Horizontally under the arm pits.
2	(Natural) Waist CIRC.	Place the tape horizontally around the smallest circumference of the torso between the chest and hips.
3	Low Waist CIRC.	Place the tape horizontally around the abdomen, 2 inches below the natural waist. The additional measurement is used for more casual pants style.
4	Hip (seat) CIRC.	Place the tape at the widest part of the hips keeping the tape parallel to the floor passing it over the widest part of the buttocks.
5	Back Waist Length	Place the tape at the base of the neck (Usually you can feel the vertebrae bone). Then measure down to the natural waist point.
6	Center Front Waist Length	Place the tape at the base of the neck in the front (in the throat hollow) measure down to natural waist.
7	Center back Neck to Front Waist Length	Place tape at the base of center back neck, then measure around the neck and over the shoulder down toward the center front natural waist point.
8	Neck Base Circumference	Place the measuring tape at the base of the neck in the back measuring the circumference at the base of the neck. Do not measure too high! Make sure the tape passes of the hollow of the front of the neck as well.
9	Head Circumference	Measure the circumference around the widest part of your head (as a hat would sit above the ears and over the forehead.)
10	Head Length	Place the tape measure at the chin measuring vertically to the top of the head. Do not conform tape to face- hold tape straight.
11	Across back width	Measure between the points at which the arms are connected to the body (over the shoulder blades.)
12	Across front width	Measure across the front of the chest between the points where the arm creases to form the armpit.
13	Shoulder length	Place the measuring tape at the high shoulder point* measuring to the shoulder tip.
14	One piece sleeve length	Measure from the shoulder tip down the arm and over the elbow to the wrist with the arm hanging naturally or slightly bent.
15	Wrist (A) & Hand circumference (B)	(A)Measure around the wrist Joint, (B)Measure around the widest point of the hand with the hand held as if placing into a sleeve. (fingers together)
16	Center Back Neck to Floor	Measure from the base of the neck in the back (as before) to the floor. Make sure to hold tape taught. (If needed use a pole or long string and measure after marking)
17	Low Waist to Floor	Place the tape at the Low Waist line measuring vertically from the side of the body to the floor- hold tape taught vertically.
18	Natural Waist to Hip	Place the tape measure at the natural waistline, along the side of the body, measure to the hip. (Marked before)
19	Crotch length	Place the tape on the low waistline at the center front. Pass between the lowest part of the crotch and up over the back to the low waistline point on the center back.
20	Inside leg/Inseam	Measure down the inside of the leg from crotch to ankle.
21	Thigh Circumference	Run the tape around the widest part of the thigh- approximately 2 inches below the crotch- make sure tape is parallel to the floor.
22	Calf Circumference	Measure around the widest part of your calf- making sure to keep the tape parallel to the floor.
23	Ankle (A) & Heel (B) circumference	(A) Measure around the ankle bone, (B) Measure around the heel, passing the tape over the top curve of your foot- tape should be at a 45 degree angle.
24	Seat Depth	Sit upright with knees at t right angle to your torso. Place the tape along the side of the body at the low waistline- measure down to the top of the seat or chair. Make sure the base is hard not a soft cushion.
25	Bicep	Measure around the widest part of your bicep- both flexed and relaxed
	Notes:	To help with measurements use elastic or string to tie around your natural waist and hip circumference for ease in finding the points for later measurements. Get a Friend to help you if possible.
		Wear fitted clothing or just underwear when taking the measurments.
		*High shoulder Point= The point where shoulder and neck connect.
